Background

James A. Cooper is the founding attorney of JC Law, PLLC. Before founding the firm in 2019, he served in the Army National Guard, including an overseas deployment during 2016 and 2017. He brings to legal practice the same discipline, attention to detail, and process orientation developed during that service.

Practice Focus

His practice concentrates on commercial debt collection, judgment enforcement, judgment domestication under the Uniform Enforcement of Foreign Judgments Act, garnishment procedures under Virginia and West Virginia law, real property lien enforcement, Article 9 secured transactions, subrogation, and commercial evictions. He represents equipment lessors, funders, servicers, and commercial creditors from pre-suit demand through judgment and enforcement, and files in circuit and general district courts across the Commonwealth and in West Virginia circuit courts.

Education

- J.D., Washington and Lee University School of Law, 2016
